8/1/71

HR, PH,

Despite ~~Ex~~ JP's presence from Friday until last night, I have completed the two planned N.O. chapters of the final part of PM. It would have presented no problem to have exapnaded these enormapusly. My notes for the the second must be three times as extensive as what I write. However, I have decided to restrict what I'd go into severalyxx and hope the decision is the correct one.

I have a note saying that HR has a clear 8x10 of CE889. I have cited the cross-hairs picture as published, which is sufficient for my purposes. But I wonder if in submission or upon publication the use of such a picture would be worthwhile? If there seems to be any possibility, I'd like to study it to made this decision. If you are firm in belief that it should be, considering how long it takes for me to get any response, I'd appreciate it if you'd lend me this and either replace it at my cost or allow me to get a copy made here, which, if it serves any purpose, would provide us with a negative. If I did the latter, I'd probably enlarge the crucial area.

PH: JMS did some checking on Adm. Kinney. I can't find my notes and I do not recall where I filed what he turned up. I have recollection, Fla. abd all that. I merely want to include the full name, etc. If you can find your copy, would appreciate.

Sincerely,
